

Frigoscandia GYRoCOMPACT® M-Series Spiral Freezer

The Frigoscandia GYRoCOMPACT® M-series spiral freezer is one of our uniquely successful self-stacking spiral freezers, chillers and proofers.

The best freezer just keeps getting better

Our customers are JBT FoodTech's driving force for Frigoscandia freezers. Our guiding principle is to always develop food processing solutions that answer your needs, provide you value, and solve your problems. Turn to JBT FoodTech. You will benefit in both the short and long term, because:

- We give you detailed, reliable pay-back calculations developed from years of experience and a database of over 15,000 actual applications. So you achieve continuous cost efficiency.
- At our Food Technology Centers, you and we will test your actual products to verify optimal configuration for your current and future processing needs. So you achieve continuous optimized processing.
- You are the key reason for R&D at JBT FoodTech. Each development or improvement we make aims to lower your costs while raising your food quality, creativity and throughput. So you achieve continuous growth.
- We support you throughout the life of your freezer, whatever your need. So you achieve continuous prosperity.
